

ARIF HAKIM BIN ASRI

Kuala Lumpur | +601117801534 | arifhakimasri@gmail.com | www.linkedin.com/in/arifhakimasri

PROFILE SUMMARY

Motivated and detail-oriented Software Engineering graduate with hands-on experience in both mobile and web development. Proficient in building full-stack applications, optimizing workflows, and debugging complex systems. Demonstrated ability to collaborate in agile teams, contribute to real-world software solutions, and adapt quickly to new tools and technologies. Passionate about creating scalable, user-friendly applications and eager to contribute technical expertise and problem-solving skills to a forward-thinking, innovative development team.

WORK EXPERIENCE

Software Development Engineer (SDE) Intern

Axrail Sdn. Bhd., Kuala Lumpur

March 2025 – July 2025

- Developed cloud-based applications using AWS Lambda, DynamoDB, Python, and AWS Bedrock for intelligent data automation and processing.
 - Created test scripts and ground truth datasets to validate AI-extracted data, ensuring high accuracy and reliability in automated document workflows.
 - Explored and integrated ERP systems such as QuickBooks Online via REST APIs to streamline invoice generation and system synchronization.
 - Produced detailed technical documentation for APIs, workflows, and internal tools to support future development and team onboarding.
 - Assisting in preparing document for the client demos, ensuring clear communication of product features, workflow automation, and integration capabilities tailored to client needs.
-

EDUCATION

University Kuala Lumpur Malaysian Institute of Information Technology

Bachelor of Information Technology (Hons.) in Software Engineering

February 2022 – July 2025

CGPA: 3.74

German-Malaysian Institute, Selangor

Germany A-Level Preparatory Programme

August 2019 – March 2021

CERTIFICATIONS

- Google Project Management Certificate (Coursera), May 2024
- Test Deutsch als Fremdsprache (TestDaF), September 2021
- AI Fluency via Rakyat Digital Portal, July 2025

TECHNICAL PROJECTS

Diabetease: A Mobile-Based Recipe Sharing App

Technologies: Flutter, Firebase, Edamam API

- Developed a diabetic-friendly recipe-sharing app using Flutter, Firebase, Edamam API, and OpenAI API.
- Integrated nutritional analysis, AI-generated feedback, and user-generated content.

AI Agent Platform Project

Technologies: Python, AWS Lambda, AWS S3, AWS Bedrock, AWS DynamoDB

- Contributed to the development of a **PO-to-SO (Purchase Order to Sales Order)** backend implementation within an AI-driven agent platform designed to streamline supply chain processes.

TECHNICAL SKILLS

- **Programming Languages:** PHP (Intermediate), Java (Intermediate), Python (Intermediate), Dart (Intermediate)
- **Frameworks & Platforms:** React.js (Beginner), Flutter (Intermediate), AWS Lambda (Beginner)
- **Database Management:** MySQL (Expert), SQLite (Intermediate), Google Firebase (Intermediate), AWS DynamoDB (Beginner)
- **Tools & Technologies:** Visual Studio Code, Git, JIRA, n8n, Microsoft Office, Canva, Postman, QuickBooks Online, AWS Bedrock, Prompt Engineering
- **Web Development:** HTML, CSS, JavaScript (Intermediate), Bootstrap (Beginner)

LANGUAGES

- **Malay** (Native)
- **English** (Fluent)
- **German** (Intermediate)

AWARDS

- Dean's List Recipient for 6 consecutive semesters
